

## PRODUCT REVIEWS

Clarisonic adds the **Ice Blue Mia**—exclusively for professionals—to its line of sonic cleansing devices. The compact Mia offers a single-button, single-speed vibrating head that houses interchangeable brush heads. The sonic vibrations cleanse the skin, clear the pores and help to reduce the appearance of fine lines and wrinkles. The rechargeable brush is waterproof and has a power link charger that magnetically attaches to the handle allowing for 20 minutes of use. Contact: **888.525.2747**, [www.clarisonic.com](http://www.clarisonic.com).

**CelFix DNA Youth Recovery Facial Serum** from Axia Medical features three DNA repair enzymes to repair and protect skin with the help of a liposomal delivery system. The serum contains hyaluronic acid, anti-inflammatory evodia extract and antioxidant L-ergothioneine. Contact: **866.494.4466**, [www.dermesse.com](http://www.dermesse.com).

The compact Nd:YAG 1064nm **LightPod Neo XT** laser from Aerolase delivers up to 319J/cm<sup>2</sup> of energy for permanent hair reduction and the treatment of leg vessels, spider veins and age spots. The LightPod NEO requires no anesthetic or skin cooling, and the handpiece does not need to touch the skin. Contact: **914.345.8300**, [www.aerolase.com](http://www.aerolase.com).

The updated **SmartXide DOT HP CO<sub>2</sub>** fractional laser from DEKA Medical features an average power output of 50W and can attain irradiance up to 250W with each pulse. The system offers independent modulation of both energy and dwell time, which allows operators to control both the depth of tissue treated and the degree of treatment for tailored skin tone and texture treatments. Contact: **877.844.5552**, [www.dekalaser.com](http://www.dekalaser.com).

DermaQuest **Collagen Activating Complex** has been reformulated to include plant stem cell Phytostem Edelweiss. The complex increases collagen production and scavenges free radicals with amino acid ACS III; reduces the appearance of fine lines and wrinkles with Actifirm TS, a combination of gotu kola and echinacea; and firms and increases the skin's moisture retention with marine enzyme MDI Complex. Contact: **800.213.8100**, [www.dermaquestinc.com](http://www.dermaquestinc.com).

**Antioxidant Anti-aging Day Cream** from Glytone combines 6% free glycolic acid and two high-performing antioxidants—red tea flavonoids and delta tocopheryl glucoside, a patented, time-released form of vitamin E—to protect skin against daily, environmental damage and reduce the visible signs of aging. Contact: **800.459.8663**, [www.glytone-usa.com](http://www.glytone-usa.com).

## PRODUCT REVIEWS

CellCeuticals Biomedical Skin Treatments presents **PhotoDefense Anti-PhotoAging Daily Skin Protector SPF55+/PA+++**. The ultralight, daily-use formula helps to combat premature skin aging and reverse the signs of aging. The cruelty-free, paraben-free sunscreen contains the highest possible level of protection against UVA rays, and no artificial fragrances or colors. Contact: **888.695.0335**, [www.cellceuticalskincare.com](http://www.cellceuticalskincare.com).

The **MedLite C5** from HOYA ConBio offers two wavelengths—532nm and 1064nm—for skin rejuvenation treatments, wrinkle and scar reduction, and basic black and red tattoo removal. The system is available at a lower price point than its predecessor, the MedLite C6, but can be upgraded to the C6 for increased power and the ability to treat more elaborate tattoos. Contact: **800.532.1064**, [www.conbio.com](http://www.conbio.com).

Formulated for sensitive skin, dermHA **Hyaluronic Moisture Serum** utilizes high concentrations of hyaluronic acid to hydrate skin plus olive extract, phospholipids, green tea and vitamins to sooth and protect. The formulation is free of alcohol and fragrances. Contact: **877.933.7642**, [www.dermha.com](http://www.dermha.com).

Formulated for patients with sensitive skin who want to improve their skin texture and radiance, **Rétrinal+ Crème** from Eau Thermale Avène is formulated with retinaldehyde and Pre-Tocopheryl, a patented, photostable form of vitamin E. The antiaging night cream is available in two concentrations: Rétrinal+ 0.05 (.05% retinaldehyde) and Rétrinal+ 0.1 (0.1% retinaldehyde). Contact: **866.412.8363**, [www.avenusa.com](http://www.avenusa.com).

Sound Surgical Technologies **VASER Lipo System** has been re-engineered for ease of use and improved fat transfer. The ultrasonic energy has been specifically tuned to break apart fatty deposits while preserving important connective tissue and maintaining fat cell viability, and the complete system is optimized for fat harvesting. The new VASER also features an ergonomic handpiece, a wide array of probe options to treat all areas of the body and quieter operation. Contact: **877.768.2737**, [www.vaser.com](http://www.vaser.com).

**Dermacyte Oxygenating Eye Complex** from Oxygen Biotherapeutics is specifically designed to refresh, hydrate and restore a youthful appearance to the eye area. The hypoallergenic and paraben-free formulation includes avocado essence, oat kernel, meadowfoam seed extract, vitamin C, sunflower oil and high ash. Contact: **877.699.6248**, [www.oxybiomed.com](http://www.oxybiomed.com).

Clinician's Complex  
**Bruise Cream**  
is formulated to accelerate the skin's natural healing process, lessening the severity of post-cosmetic procedure

bruising. The cream features arnica oil to increase circulation, emu oil, and antioxidants vitamin E and green tea extract.
